

REMARKS

After an Interview with the Examiner, it was brought to the Applicants' attention that color drawings may not have been submitted to the Patent Office. Applicants' representative contacted the Office of Publications, who in turn requested that the issue be directed to an individual in drafting. Applicants' representative contacted Joshua Chase, who indicated that there may have been an outside contracting error with respect to the indication that color drawings existed in the file.

In a conversation with Mr. Chase, he indicated that a formal request for the file is being made to check for color drawings.

This Amendment does not modify the claims or specification in any way that would modify the Examiner's allowance of the application.

Respectfully submitted,

MERCHANT & GOULD P.C.
